

First Baptist Church of LaBelle

Church Conference

June 28, 2009

Financial reports presented and reviewed. Accepted as printed.

Report on Community Christian School. Their board had approached the church about using our new facility for their school until they could get their own building. They have also asked about using the grove and putting trailers there to use for the classes. At this time there has not been a proposal presented to the church so no action is needed from the church. One of the questions asks: Would someone from the church be on the school board. Pastor Frank said he did not know but that is a good question.
